BURN

Health & Wellness | Body Transformation

Product Description

Burn is a science-based thermogenic. This patent-pending formula uses herbal ingredients to temporarily increase your basal metabolic rate and thermogenesis, and provides support for healthy glucose metabolism.

Product Benefits

- Helps to temporarily increase thermogenesis and basal metabolic rate
- Provides support for healthy glucose metabolism
- Helps maintain the body's ability to metabolize nutrients
- Plant-derived medicinal ingredients

Positioning Statement

Inspired by the Mediterranean lifestyle, Burn is a live clean thermogenic designed to support your lifestyle and fitness goals. This unique formula is crafted with naturally-derived ingredients including green tea, guarana, green coffee bean, berberine, olive and the potent kelp extract, fucoxanthin. These powerful ingredients work together to temporarily increase your basal metabolic rate, temporarily boost thermogenesis and support healthy glucose metabolism. Plus, Burn helps maintain your body's ability to metabolize nutrients.

Burn's blend of targeted herbal ingredients work synergistically to optimize your metabolism and thermogenesis, making it the ideal companion to a healthy lifestyle and any fitness regimen.

Recommended Dose (adults):

Take 2-3 capsules, once daily with a large glass of water and a meal or snack.

Key Ingredients

- Fucoxanthin
- Plant-derived caffeine
- Berberine
